Author Index

Anderson, B. G. 359
Becks, Hermann 437, 449
Brehme, K. S. 183
Briggs, R. W. 273
Butcher, E. O. 175
Ciacci, V. W. 329
Eichhorn, H. L. 351
Evans, H. E. 437, 449
Ferrill, H. W. 119
Gray, H. 365, 373, 385
Gray, Peter 267
Grokoest, A. W. 175
Hall, Lilian 399, 415
Hammett, F. S. 69, 85, 149, 161
Haven, F. L. 257
Hersh, A. H. 359
Hodge, H. C. 257
Kaslow, A. L. 385
Kibrick, E. A. 437, 449
Lane, C. E. 61
Latimer, H. B. 285, 293
Lerner, I. M. 1
Markee, J. E. 61
Marx, Walter 437, 449
Miller, B. J. 329
Ouiring, D. P. 301
Rahn, Otto 113, 197
Reimann, S. P. 329
Richards, O. W. 171
Richards, T. W. 141
Schader, Lorraine 19
Sellei, Joseph 27
Sleggs, G. F. 53
Weinbach, A. P. 217, 235
Williams, J. W. 201
Wilson, L. P. 11
Young, Margaret 399, 415
Zamenhof, Stephen 123
Zucker, Lois 399, 415
Zucker, T. F. 399, 415

Subject Index

Adrenal—body weight relation 317
allometry 2
anemia and proline and aspartic acid 329
antuitrin G affecting growth of neurons 123
aspartic acid, effect on rabbit ova 329
Bacterial growth, basic factors 208
bacterial growth needs CO_2 113
bantam growth 1
binomial expansion, class frequencies 267
bone formation and growth hormone 437, 339
brain-body weight relation 301
Cancer research, planning 161
cancer—see tumors 161
carbon dioxide needed for growth 113, 197
cat, growth curve of integument 285
chicken, relative growth 1
class frequencies of binomial expansion 267
coloration patterns 53
cysteine sulfinic acid, effect on tumor growth 149
Daphnia, differential growth 359
differential periodicity 57
differentiation of rabbit ova by chemicals 329
dimin 39
Drosophila 183
Drosophila larvae and proline 11
Drosophila larvae and thiamin 19
dog, weight of hypophysis 293
dwarfing by dyes 39
dyes, fluorescent and plant growth 27
Endocrine deficiency and transplants 61
endochondral bone formation 449
eye transplants on starving hosts 171
eye transplants in Drosophila 183
extremities, segment proportions of 385
Fluorescein 27
fluorescent dyes and plant growth 27

Giants, dimensions of ... 385
gonadotropins affecting transplants ... 61
growth, affected by aspartic acid ... 329
growth, affected by cysteine-sulfinic acid ... 149
growth, affected by fluorescent dyes ... 27
growth, affected by hydroxyproline ... 329
growth, affected by insulin ... 119
growth, affected by methionine ... 85
growth, affected by proline ... 11, 69, 329
growth, affected by thiamin ... 19
growth, affected by vitamin B_1 ... 19
growth and nutrition ... 399, 415
growth, bacterial, basic factors ... 208
growth curve, animals, prenatal ... 230
growth curve, chimpanzee ... 247
growth curve, human ... 217, 235
growth curve of cat integument ... 285
growth, ectodermal, transplanted on tadpoles ... 273
growth hormone, effect on neurons ... 123
growth hormone, effect on tibia growth ... 437
growth hormone, effect on endochondral bone formation ... 449
growth in living and non-living matter ... 201
growth laws ... 399, 415
growth, mental ... 141
growth of brain affected by growth hormone ... 123
growth of hair, and tissue fluid ... 175
growth rate, man and animals ... 232
growth rates of eye transplants ... 183
growth rate, rats ... 399, 415
growth ratio and starvation ... 171
growth, relative, of chicken ... 1
growth, reproduction cycle ... 351
growth requires CO_2 ... 113, 197
growth retardation causing papilloma ... 273
growth study by isotopes ... 257
growth theories ... 419
Hair growth and tissue fluid ... 175
heart—body weight relation ... 321
heterauxesis ... 3
hydroxyproline, effect on rabbit ova ... 329
hypophysis of dog, weight ... 293
hypophysectomy and bone growth ... 437, 449
Inflammation in living and non-living matter ... 201
insulin and growth ... 119
integument of cat, growth curve ... 285
isotopes, radioactive, in growth study ... 257
Larval growth and proline ... 11
leg length of man ... 373
leghorn growth ... 1
Measurement of leg length ... 373
measurement of segment proportion ... 385
measurement of trunk size ... 365
mental growth ... 141
methionine, effect on tumor growth ... 85
mouse tumors and cysteine sulfinic acid ... 149
mouse tumors and proline ... 69
mouse tumors and methionine ... 85
Neuron proliferation affected by growth hormone ... 123
nutrition and growth ... 399, 415
Optic disk transplants in Drosophila ... 183
ova, differentiation by chemicals ... 329
oxidation-reduction mosaics in growth ... 201
Papilloma transplants on tadpoles ... 273
pattern, morphological, of Daphnia growth ... 359

patterns of pigments 53
periodicity in color patterns 57
phosphorus, radioactive, in growth study 257
photosensin 27
pigment patterns 53
plant growth affected by fluorescent dyes 27
power formula 301
prenatal growth curve, animals 230
prenatal growth curve, cat 285
prenatal growth curve, man 217
prenatal growth curve, rat 399, 415
proline, effect on larval growth 11
proline, effect on rabbit ova 329
proline, effect on tumor growth 69
protozoa need CO_2 for growth 197
Racial differences in body proportion 385
rabbit ova, effect of aspartic acid 341
rabbit ova, effect of hydroxyproline 340
rabbit ova, effect of proline 331
radioactive isotopes in growth study 257
rat growth and growth hormone 437, 449
rat growth and insulin 119
rat growth and nutrition 399, 415
reproduction cycle 351
research, biological, planning for 161
Salamander eye transplants on starving host 171
scale of being 301
segment proportions in man 385
starvation affecting transplants 171
Tadpoles, neurons and growth hormone 123
tadpoles, used in ectodermal growth transplants 273
thiamin, effect on larvae 19
thyroid—body weight relation 312
tibia growth and growth hormone 437
tissue fluid affecting hair growth 175
transplants affected by starvation 171
transplants of ectodermal growth of tadpoles 273
transplants, ovarian intraocular 61
transplants, response to gonadotropins 61
trunk size of man 365
tumor growth affected by cysteine sulfinic acid 149
tumor growth and methionine 85
tumor growth and proline 69
vitamin B_1 effect on larvae 19
